

# River View Primary & Nursery School Curriculum Intent

**Subject/Area:**

**French**

**INTENT**

**Rationale:** At River View Primary and Nursery School, we fully support the National Curriculum demand for the learning of a language by providing opportunities for our children to:

- Develop an awareness of the various cultures and communities around them.
- Acquire a desire to cultivate language learning.
- Increase in confidence in using the language to communicate and apply their new skill in real life situations.

**Ambition:** At River View Primary school, we are committed to provide good quality, consistent and progressive teaching of the French language and culture throughout the children's journey from KS1 to the end of KS2 to enable them to recognise the value of MFL learning and encourage them to develop it further as a skill for life.

## **Concepts**

**All children will:**

- Take part in songs, rhymes and stories to help them identify and model the correct pronunciation of the French language and its sound patterns.
- Build up independence in using the language through increased understanding of its structure and grammar.
- Develop a bank of vocabulary they can use in various situations relevant to them.
- Work in developing their French language skills in 4 areas: speaking, listening and responding, reading and writing.
- Cultivate a curiosity for the Francophone world and its diversity.
- Experience taking part in cultural celebrations and tasting/making regional and international cuisine.
