

River View Primary & Nursery School Curriculum Impact

Impact:

Art and Design is taught throughout the school through planned lessons with focussed skills and objectives, after-school clubs and through cross-curricular special days and activities. For many of our children, art lessons are an opportunity to express themselves and to take risks with their learning, our Art lessons are inclusive and allow all children to show their creativity. Each year children build upon or learn new skills to ensure there is a clear progression throughout the school.

Impact of Art and Design

Staff Voice

"Art and Design allows my children to build on their creative side, it allows them to express themselves." - KS1 Teacher

"Art and Design is important for the holistic development of children at River View." - KS2 Teacher

"Our children in EYFS have daily opportunities to showcase their creativity using a variety of materials."

Pupil Voice

"I enjoyed this lesson as I got to talk about my work to my friend". - Y2

"We have been learning to sketch parts of animals". - Y4

"We were drawing trees with chalks and pastels. They represented the different trees from Stuck (story by Oliver Jeffers)".
