

Publishing information online: requirements

The table below summarises the information that maintained schools and academies are required to publish on their websites as of September 2016.

The table also shows which school phase(s) each requirement applies to. All of the requirements apply to primary, secondary and special schools, except where they refer to specific Key Stages, or relate to funding which is exclusive to either primary or secondary provision.

Please note that the academy list is based on the requirements as set out in the Department for Education's (DfE's) model funding agreement, and academies should check their specific duties under their own agreements.
