

River View Primary and Nursery School

Governor Visit Report

Name	Colin Bamford
Date of Visit	11.02.2019
Focus of Visit	Governors day - Maths observation
Classes/staff visited	Y1/Y3
Summary of activities eg observing classes, talking to staff and pupils, looking at resources, had lunch etc Accompanied by Mrs Simpson, I observed 1 Year 1 class and 2 Year 3 classes. Mrs Simpson explained current maths teaching methodology and discussed extra-curricula activities designed to help children achieve in Maths.	
What I have learned as result of my visit Recent workshop attracted 84 parents all keen to support their children by developing a greater understanding of teaching methodology and vocabulary used in Maths. School now uses 'TT Rock Stars' which has had a positive impact.	
Aspects I would like clarified/questions I have	
Positive comments about the focus Children in all classes appear to be task focused. The children collaborated well when working in groups. Children used a variety of techniques to help them work through Maths related questions	
Ideas for future visits	
Any other comments There was a 'buzz' in each class that indicated children were working together to achieve the tasks in hand.
