

## River View Primary and Nursery School

### Governor Visit Report

|                                                                                                                                                                                                     |                   |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------|
| Name                                                                                                                                                                                                | KARIN STUBBINGTON |
| Date of Visit                                                                                                                                                                                       | 8.11.2018         |
| Focus of Visit                                                                                                                                                                                      | EARLY YEARS       |
| Classes/staff visited                                                                                                                                                                               | RECEPTION/NURSERY |
| Summary of activities eg observing classes, talking to staff and pupils, looking at resources, had lunch etc<br>I OBSERVED 3 CLASSES AND ALSO THE OUTSIDE AREA. I HAVE SPOKEN TO STAFF AND PUPILS.  |                   |
| What I have learned as result of my visit<br>THE CLASSROOMS WERE EXTREMELY CALM AND ORGANISED. THE DISPLAYS WERE GOOD AND STIMULATING. I HAVE NEVER SEEN RECEPTION AND NURSERY SO ORGANISED BEFORE. |                   |
| Aspects I would like clarified/questions I have<br>I HAVE ASKED THE EARLY YEARS LEAD ALL MY QUESTIONS AND THEY HAVE BEEN CLARIFIED.                                                                 |                   |
| Positive comments about the focus<br>ALL OF THE CHILDREN IN RECEPTION (2 CLASSES) AND NURSERY WERE ENGAGED AND ON TASK. THE PUPILS WERE CALM, AND TOTALLY IMMERSED IN THEIR LEARNING.               |                   |
| Ideas for future visits<br>I COULD VISIT IN AN AFTERNOON TO SEE THE CHILDREN LEARNING DIFFERENT SUBJECTS.                                                                                           |                   |
| Any other comments<br>VISIT LATER IN THE YEAR TO SEE HOW WELL THE PUPILS HAVE IMPROVED.                                                                                                             |                   |
