

Using the app

Connecting your
child's account

First download the BoomReader app to your phone.

The app is available on the Apple App Store or Google Play

Search: BoomReader Parents

You'll first need to create your parent account.

BoomReader will email you a 5 digit login code.

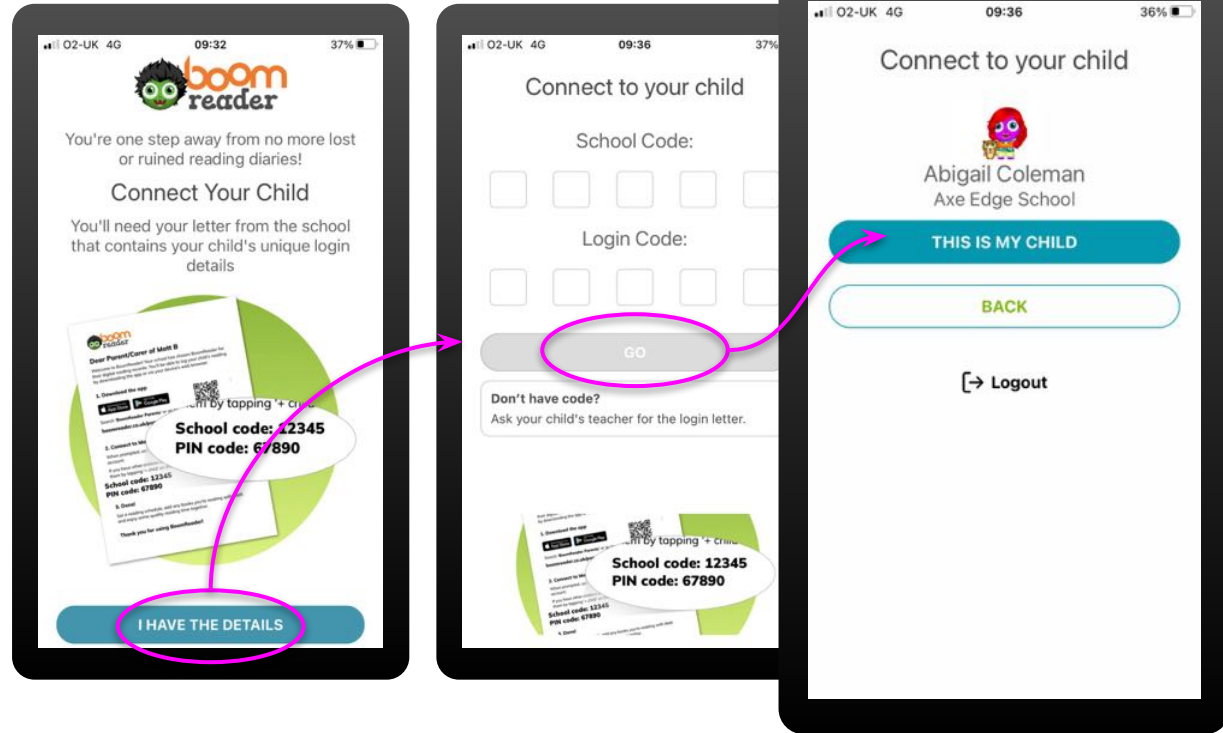

Enter it to activate your account and login.

The image displays three sequential mobile app screens for BoomReader's parent account setup. The first screen, titled 'Parents' and 'Get Started', features a green monster mascot at the top. It includes a 'CREATE ACCOUNT' button (circled in pink) and a 'LOGIN' button. The second screen, titled 'Signup', prompts the user to enter their first name, last name, and email address. It also includes a checkbox for 'I agree to the Terms & Privacy Policy' and links for 'Terms & Conditions' and 'Privacy Policy'. A 'NEXT' button (circled in pink) is at the bottom. The third screen, titled 'Enter Login Code', informs the user that a 5-digit code has been sent to 'bencoleman@mail.com'. It features five input boxes for the code, a 'CONFIRM' button, a 'CANCEL' button, and a 'Request Code Again' link. Two pink arrows indicate the flow from the 'CREATE ACCOUNT' button on the first screen to the 'NEXT' button on the second, and from the 'NEXT' button to the 'CONFIRM' button on the third.

Next you need to connect to your child's account.

Use the details on the letter that your school sent you.

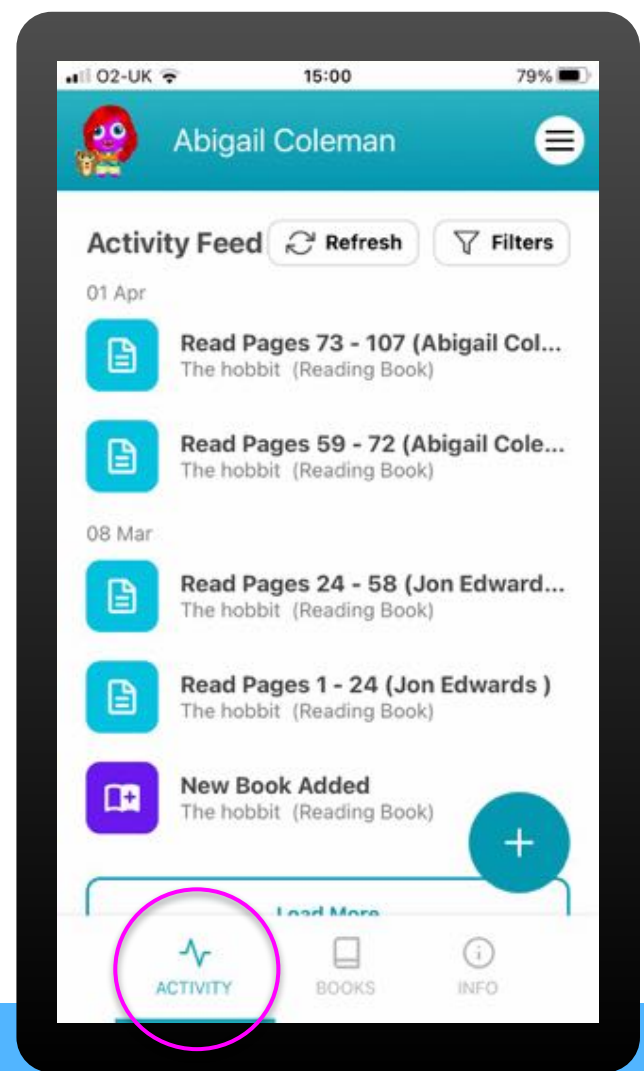

What's in the app?

Your child's activity feed shows you a timeline of the reading activity.

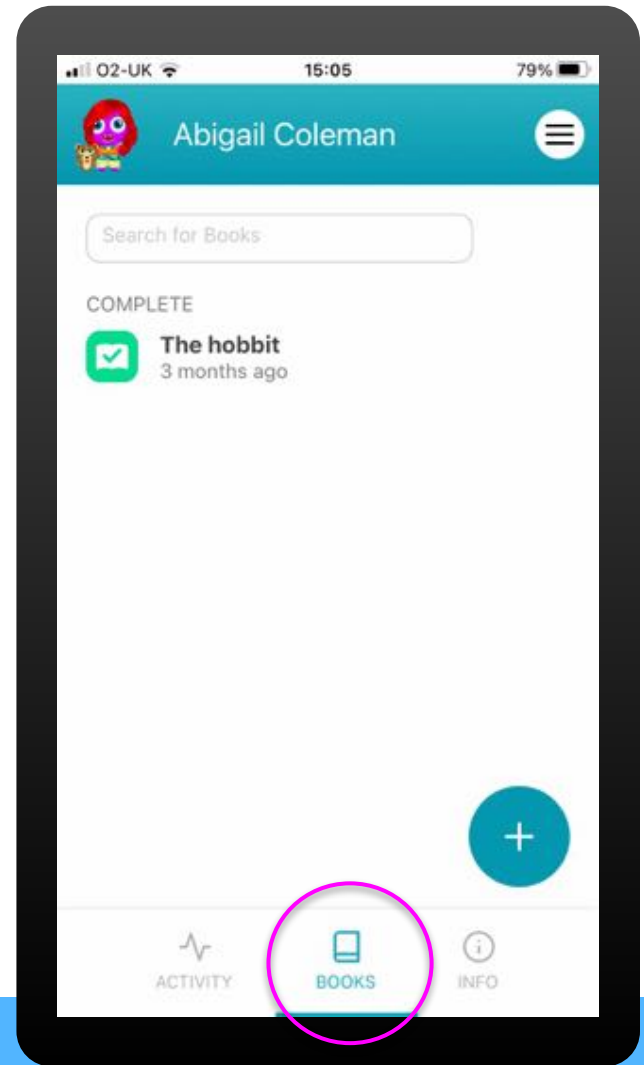

It shows all logged reads, books added and changes to reading bands in date order.

Tap an activity to see more details.

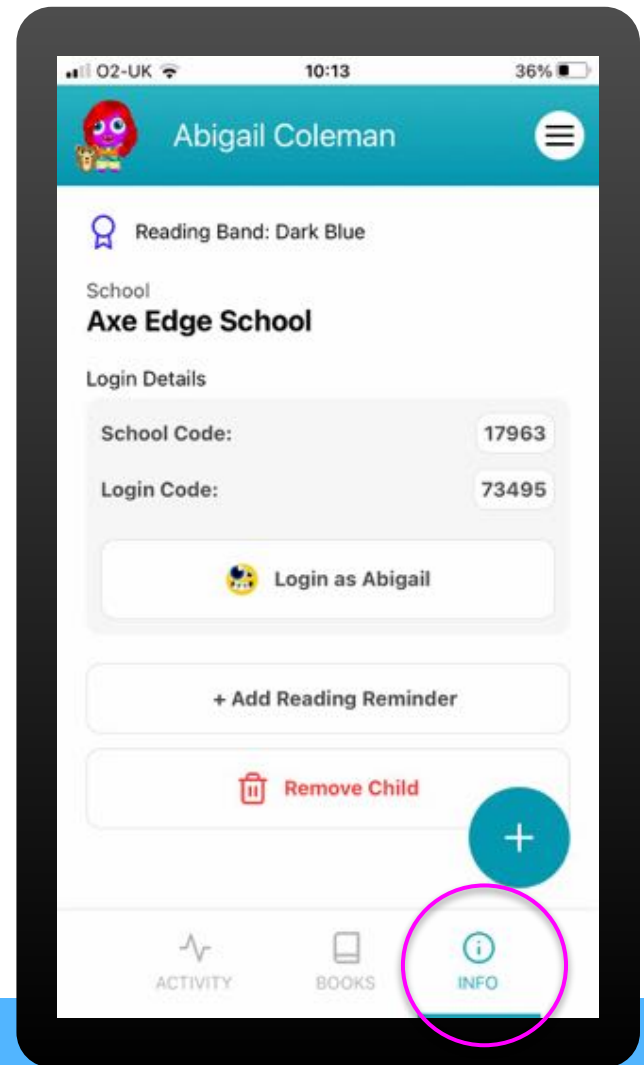

The books tab shows you all your child's books including those they are currently reading.

Tap each one to see the complete reading logs and other details for that book.

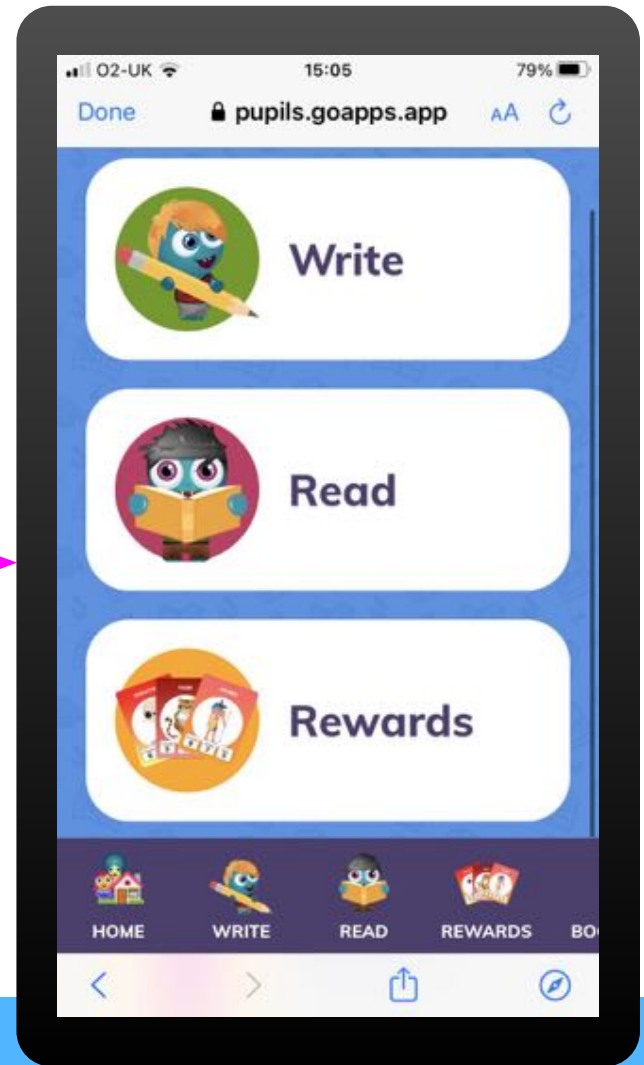

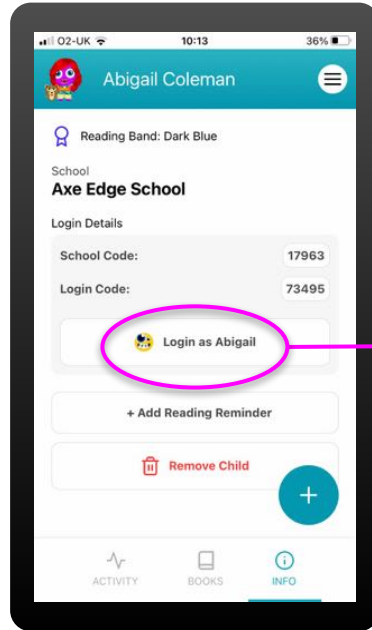

The info tab shows your child's details:

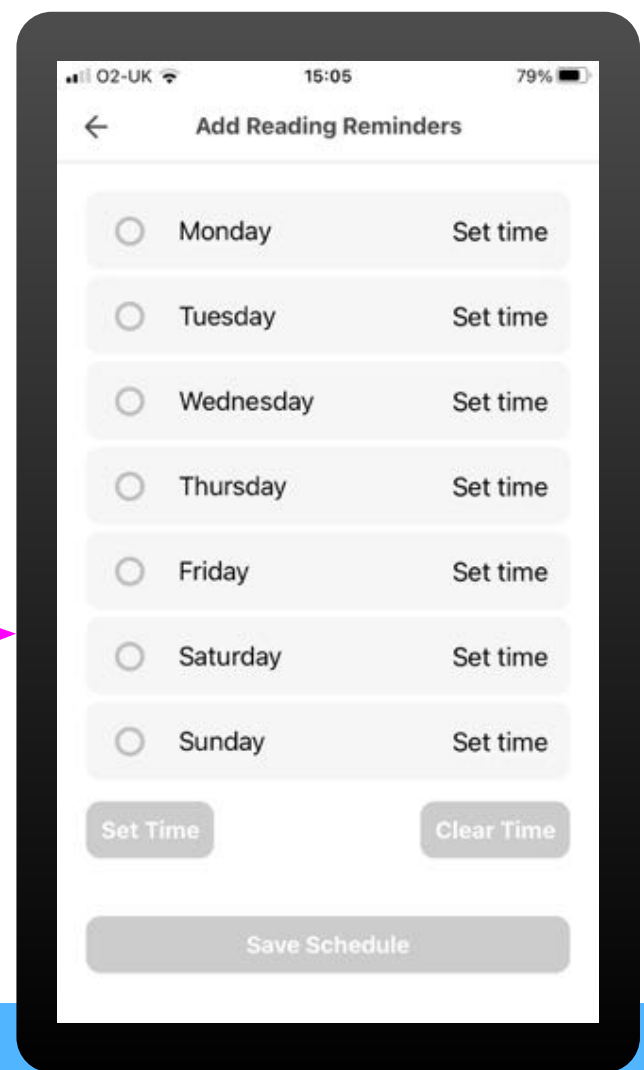

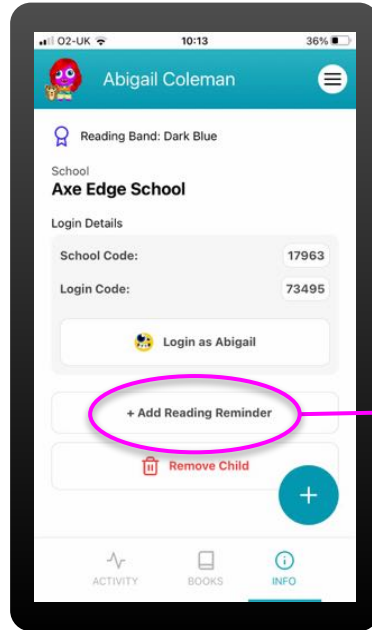

- School
- Current reading band
- Login details

You can log in as your child and help them 'spend' their Gems, style their Boomer character or even let them record their own reading.

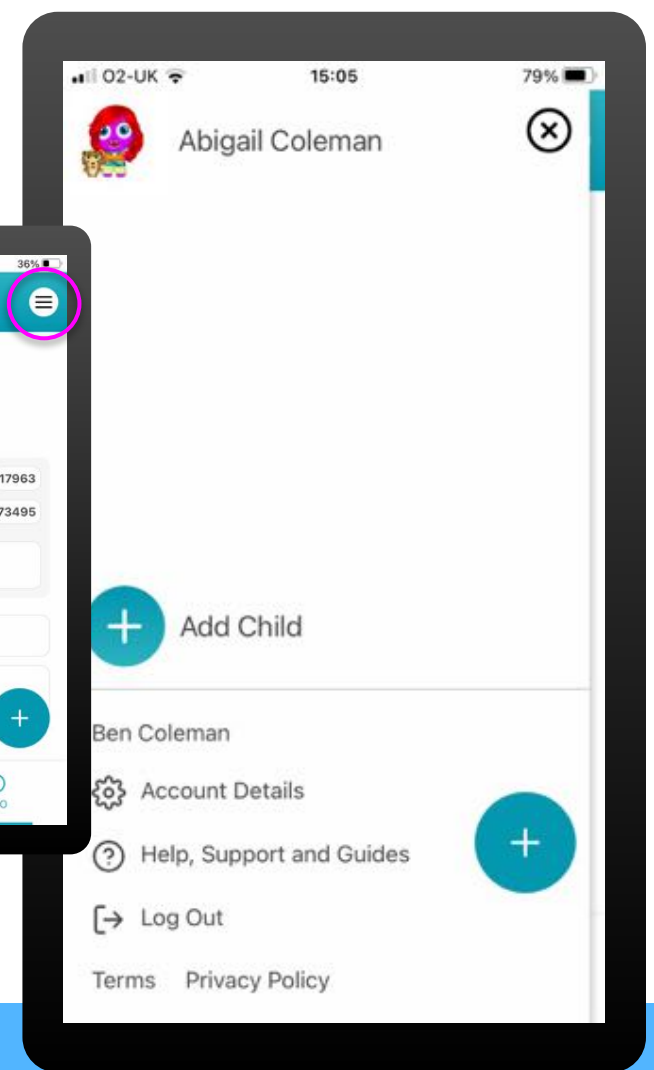

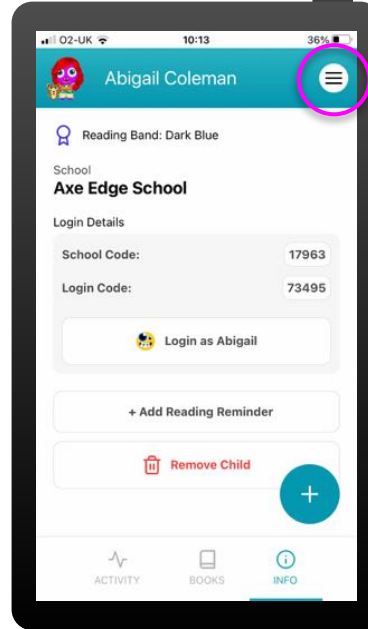

To help you set
aside regular
reading time
you can create
reminders to
read at home.

The menu lets you:

- Add more children
- Edit account details
- View help guides

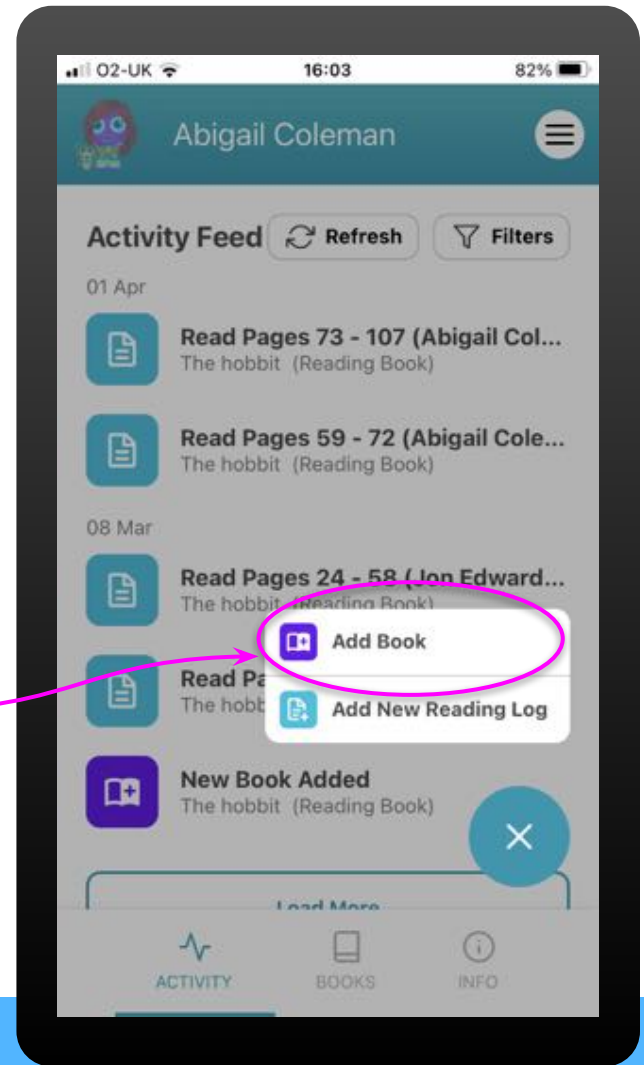

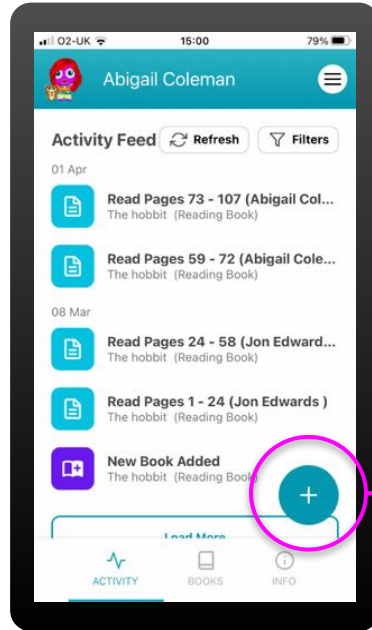

Adding a book

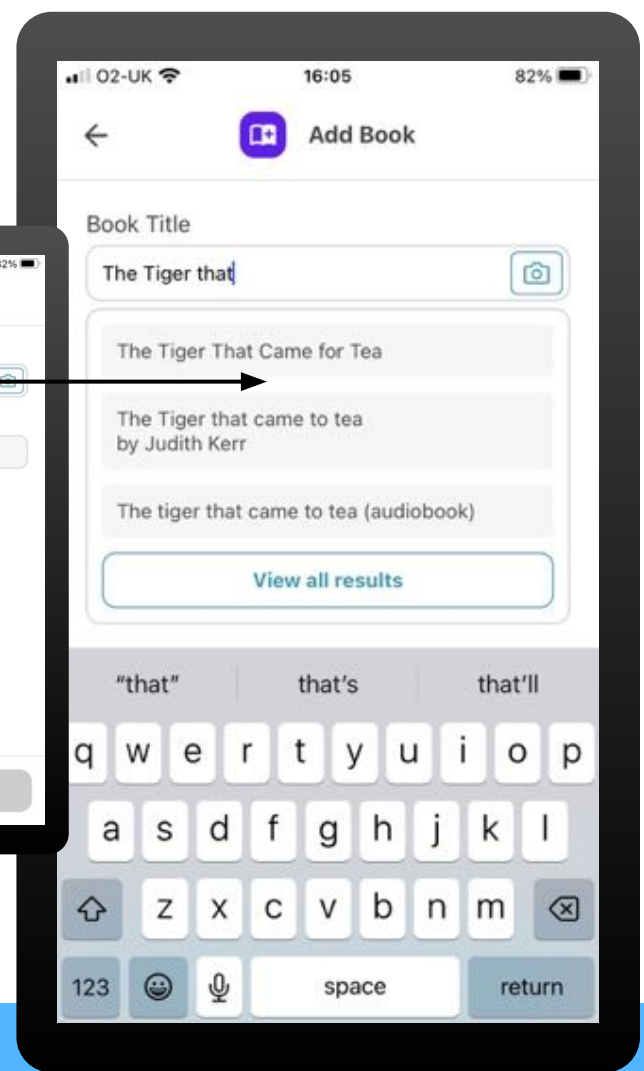

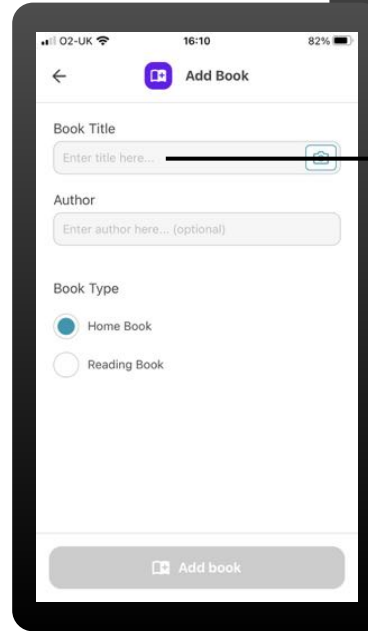

If your child's book isn't already added it's easy to do so.

Click the + button and select 'Add Book.'

To add a book, start typing the name of the book. We will suggest books from our database.

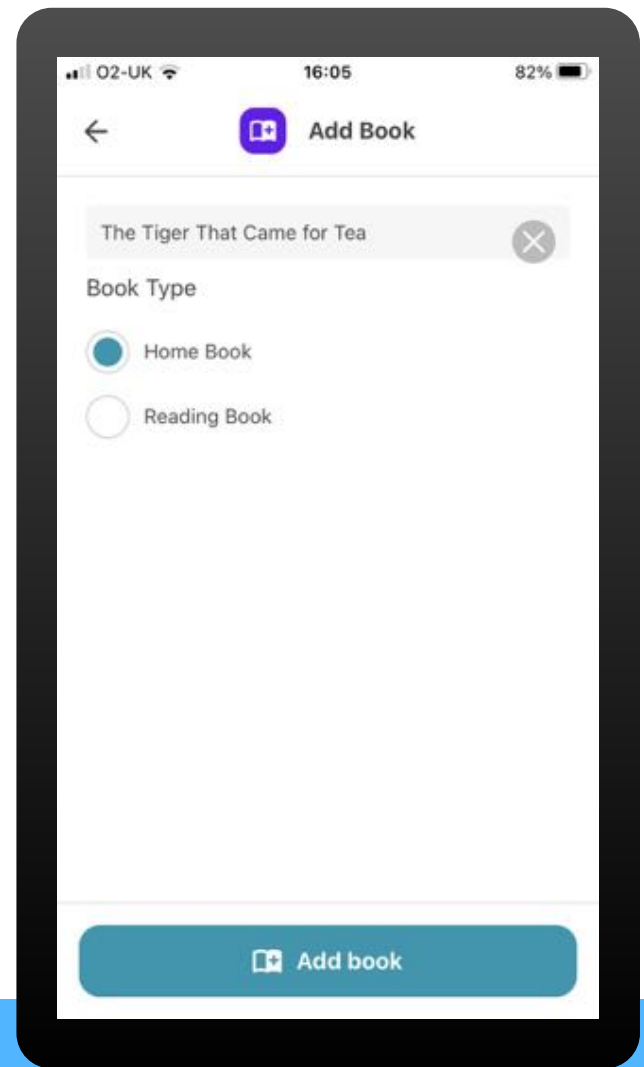

No matches? Just type the full title and we'll add it to our library!

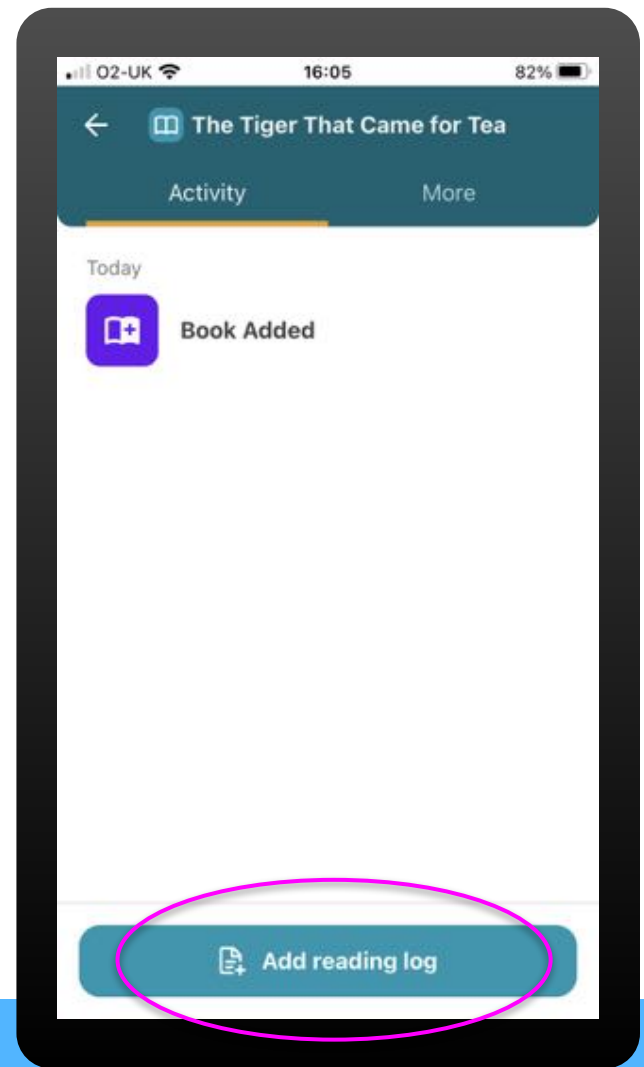

Next, select if it is a home book or a class reading book.

A home book is generally one you own yourself.

A reading book is a book your child has brought home from school.

The book has now been assigned to your child. You can add a reading log straight away by tapping the Add reading log button.

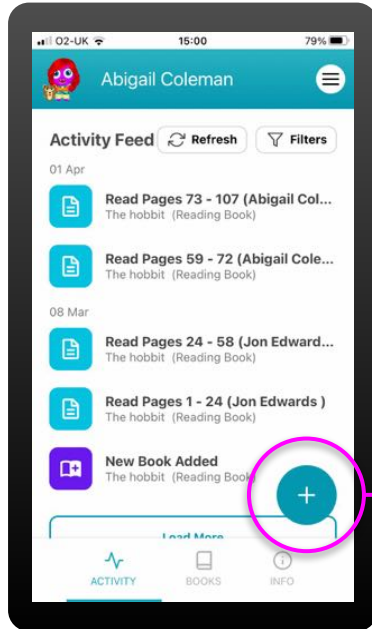

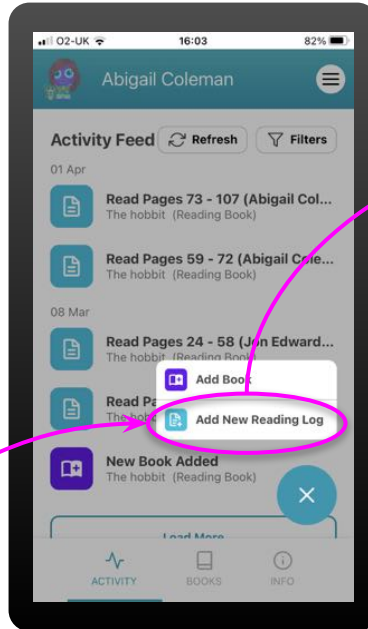

Adding a reading log

To add a reading log:

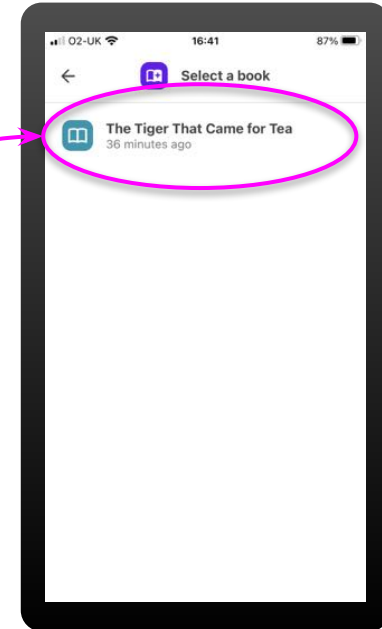

Tap the + button

Add New Reading Log

Select the correct book

To add a log you just need to enter the page numbers.

Once you enter a 'To page' you'll be able to add the reading log.

A screenshot of a mobile app interface titled 'Add Log'. The interface includes several input fields and a toggle switch. A pink circle with the number '1' highlights the 'To page' input field. Another pink circle with the number '2' highlights the 'Add reading log' button at the bottom. The status bar at the top shows '02-UK', '16:41', and '87%' battery. The app title 'Add Log' is in the top right corner. The form fields are: 'When did you read?' with a 'Just Now' button and a calendar icon; 'From page' with a '1' input and a document icon; 'To page' with an empty input and a document icon; 'Did you finish the book?' with a toggle switch set to 'No'; 'Leave a comment' with a text area; 'Problem Words' with a text area and a prompt to 'Enter words here and press 'return/enter''.

If you are able to comment on how your child has read it will support your child's teacher in accurately assessing your child's attitude to reading outside of school.

You can add a short comment and highlight any specific words or sounds your child struggled with.

A screenshot of a tablet displaying the 'Add Log' app interface. The status bar at the top shows '02-UK', '16:42', and '87%' battery. The app has a back arrow and 'Add Log' title. It includes a date picker set to 'Just Now', 'From page' (1) and 'To page' (10) fields, a 'Did you finish the book?' toggle set to 'No', a 'Leave a comment' section with a text box containing 'I enjoyed the start of this book.', and a 'Problem Words' section with a text box containing 'Enter words here...' and a 'Cutlery' button. A large blue 'Add reading log' button is at the bottom. Two pink arrows point to the comment and problem words sections.

Add reading log

That's it... You've added your first reading log.

You can always view and edit your log just by tapping it from the activity feed.

Re-read book

If you need to re-read the book several times, use the 'Read Again' button to quickly re-assign the book.
